

CSockCanScan::updateBusStatus

```
graph LR; A[CSockCanScan::updateBusStatus] --> B[CanModule::CanStatistics::setPortStatus]
```

The diagram illustrates a function call. On the left, a gray rectangular box contains the text 'CSockCanScan::updateBusStatus'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'CanModule::CanStatistics' on the top line and '::setPortStatus' on the bottom line.

CanModule::CanStatistics
::setPortStatus
