

CanModule::CanLibLoader

```
classDiagram
    class CanModule_CanLibLoaderWin["CanModule::CanLibLoaderWin"]
    class CanModule_CanLibLoader["CanModule::CanLibLoader"]
    CanModule_CanLibLoaderWin --|> CanModule_CanLibLoader
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box labeled 'CanModule::CanLibLoaderWin'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'CanModule::CanLibLoader'. This indicates that 'CanModule::CanLibLoaderWin' inherits from 'CanModule::CanLibLoader'.
